Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-5, 8-9, 17-18, and 22-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over El-Hamamsy et al (US 4,910,439) in view of Mimasu et al (US 5,998,934). El-Hamamsy discloses a high intensity discharge electrodeless lamp comprising a cases (32) in which inner components are mounted; and a fan housing (F, Figure below) having at least one at least one inlet port (A) and at least two discharge ports (82), but does not disclose discharge ports having different discharge flow rates. Mimasu discloses discharge ports (2a, 2c, 2d) having different discharge flow rates, since they have different port sizes (col. 6, lines 1-10). It would have been obvious to one ordinary skill in the art at the time the invention was made to utilize in El-Hamamsy discharge ports having different discharge flow rates as taught by Mimasu in order to cool heat generation components in the case.

3. Claims 6-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Amendment

4. Applicant's arguments with respect to claims 1-9 have been considered but are moot in view of the new ground(s) of rejection.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
